Coolant issues hurting tool life, finish, or cost per part?

In partnership with QualiChem, Tooling Associates will:

- ✓ Review your current fluids
- ✓ Recommend optimized alternative
- ✓ Check coolant concentration, pH, and tank levels
- ✓ Analyze your shop water quality
- ✓ Confirm tramp oil is properly removed
- ✓ Send your current coolant for lab analysis
- ✓ Perform a full machine clean-out & refill (if needed)

Real Results — Backed by Case Studies

📍 **Suntower Machine**

Switched from Castrol MB-50 to QualiChem XTREME CUT 232

- ➡ 314% increase in insert life
- ➡ Elimination of burrs & tool marks

📍 **NC Dynamics**

Switched from TRIM MicroSol 585XT to EQO-PURE 450

- ➡ Tool cost savings of \$8,280/year (40% reduction)
- ➡ 67% increase in parts per end mill

📍 **Orodja Erhart**

Switched from Blasocut BC 25 Combi

- ➡ 30% drop in coolant consumption
- ➡ Foam eliminated, machines cleaner
